Subject: Docket No. 2020-229-E - Communication with a member of the public
Date: Thursday, February 18, 2021 4:13:41 PM

To the Parties:

I wanted to memorialize the fact that I had a conversation this afternoon with a member of the public, Mr. Paul Hinson of Aiken, South Carolina. Mr. Hinson had concerns about how this docket would affect him as a rooftop solar customer of Dominion, but I informed him that, due to the Code of Judicial Conduct, I could not discuss the merits of the case with him. I was able to provide him with some general information. I informed him of the identity of the Commissioner representing his Congressional District at his request. I also pointed him to the Public Service Commission website and told him about the availability of the Docket management site, and how to access any Docket that he might be interested in, including Docket No. 2020-229-E. Further, I informed him of the date of the merits hearing in this Docket, and the fact that it would be livestreamed and available for viewing on the Commission's website. I also informed him of the date of the Virtual Public Hearing, and the ability of members of the public to be heard at that hearing. After we hung up, I sent him the revised Notice of the Virtual Public Hearing in March to be held before the Commission.

Thank you for your consideration in this matter.

Regards,

David Butler

Special Counsel
